	AGR 4-year average						37%	22%	20%	
	AGR 5-year average						37%	25%	21%	

* Fall Enrollment; Excludes certificate programs & non-degree seeking student.
 ** Total completed by above students

Definitions:

Enrolled Student Headcount: Unduplicated headcount of all students enrolled in undergraduate degree programs. Includes full-time and part-time students but not certificate programs.
 Enrolled Students Completed Annual Units - Units completed during the year by all students in undergraduate degree programs (often referred to as institutional credits). Excludes transfer courses and all completions that result in 0 (zero) units.
 Undergraduate Degree Recipients Headcount – The unduplicated headcount of all students who completed an undergraduate credential during the year and who are considered graduated from that program.
 Undergraduate Degree Recipients Completed Graduation Units – The total number of institutional units completed by those considered "graduated" (i.e., those counted in item 3) during their entire enrollment at the institution.

The Unit Redemption Rate (URR) is the proportion of units granted by an institution that are eventually 'redeemed' for a degree from that institution. The URR is a completion measure that can be applied to institutions serving any population of students (full-time or part-time; first-time, transfer or swirling), as well as institutions offering different degree programs or mixes of degree programs.

The Absolute Graduation Rate is the proportion of students entering an institution that eventually graduate from that institution. Unlike IPEDS which only tracks cohort based, first-time, full-time students, the Absolute Graduation Rate is inclusive of all students at the institution. Like the URR it includes all students regardless of their enrollment pattern- first-time or transfer, full-time or part-time students but also accounts for students who have a gap in their enrollment before completion.
