HEALTH Handbook
Health Evangelism And Leadership Training for Him

2016-2017

NEWSTART GLOBAL
Empowering Health Evangelism Worldwide
Cities of Influence

“Every city is to be entered by workers trained to do medical missionary work. As the right hand of the third angel’s message, God’s methods of treating disease will open doors for the entrance of present truth.” Testimonies vol. 7 p. 59 (1902); Evangelism p. 515

“Medical missionary work gives opportunity for carrying forward successful evangelistic work. It is as these lines of effort are united, that we may expect to gather the most precious fruit of the Lord.” Review and Herald, Sept. 7, 1905; Evangelism p. 516

True Medical Missionaries

“Young men and women must be fitted to engage in medical missionary work as physicians and nurses. But before these workers are sent into the field, they must give evidence that they have the spirit of service, that they are breathing a medical missionary atmosphere, that they are prepared for evangelical work.” Evangelism p. 518

Ministry Bound Together

“The fifty-eighth chapter of Isaiah contains present truth for the people of God. Here we see how medical missionary work and the gospel ministry are to be bound together as the message is given to the world. Upon those who keep the Sabbath of the Lord is laid the responsibility of doing a work of mercy and benevolence. Medical missionary work is to be bound up with the message, and sealed with the seal of God.” Manuscript 22, 1901

Shortness of Time

“As religious aggression subverts the liberties of our nation, those who stand for freedom of conscience will be placed in unfavorable positions. For their own sake, they should, while they have the opportunity, become intelligent in regard to disease, its causes, prevention and cure. All those who do this will find a field of labor anywhere. There will be suffering ones, plenty of them, who will need help, not only among those of our own faith, but largely among those who know not the truth. The shortness of time demands an energy that has not been aroused among those who claim to believe the present truth.” Counsels on Health p. 506

HEALTH Purpose & Mission

The purpose of the HEALTH (Health Evangelism And Leadership Training for Him) evangelism program is to rapidly train medical missionaries (both professional and lay) to help create centers of influence where Christ-like medical missionary work will lead people to be ready for Christ’s soon return. Graduates will be prepared to function in three key settings:

**Local Churches:** Graduates will be equipped to lead a number of types of health programs within the local church setting in a way that can provide them a modest level of support.

**Local Communities:** Graduates will be equipped to lead teams to survey and meet the needs of the community.

**Clinical Settings:** Students without prior training in the health professions will learn entry-level skills that can be utilized in clinical settings, such as medical and dental offices, to establish a relationship with patients, which can provide a foundation for spiritual care and outreach.

The HEALTH program will provide three ways to accomplish the goal of rapid medical missionary training:

**Short Term Intensives**

In conjunction with the NEWSTART® Global initiative, HEALTH offers short-term intensive HEALTH 2 GO programs for professionals that provide resources and focused instruction for 6 days. These short-term courses may also be offered for CEU credits.

**A Four-Month Immersion Program**

HEALTH provides a 17-week (four month) live-in training program for those who have the appropriate pre-requisite experiences/training and desire to receive instruction alongside experienced leaders within the context of a health evangelism cycle. Upon successful completion, students will acquire skills that God can use to turn churches, schools, and medical and dental offices into “centers of influence” as described by inspired writings.
Each intensive four-month session includes a health-based evangelism series specifically designed to lead health contacts into regular attendance and ultimately baptism in a Seventh-day Adventist congregation.

The curriculum of the four-month immersion program focuses on the four parts of the HEALTH acronym:

**Health:** Courses in this category focus on the cause and prevention of major diseases. These classes consider the leading causes of disease from various angles emphasizing a natural approach toward healing.

**Evangelism:** Courses in this category focus on the practical delivery of health information for the purpose of winning souls. Most of our time will be spent preparing for and delivering actual health seminars for local communities. The students do not just learn theory; they work with instructors to participate in real health evangelism experiences.

**And Leadership Training:** Courses in this category are focused on learning the skills needed to be a successful leader of health ministries and evangelism in various settings (i.e. the local church, the local community, urban environments, a doctor’s or dentist’s office). In addition, business principles and ethics are covered in this category.

**for Him:** Courses in this category focus on the ultimate purpose of all evangelism—leading people into a saving relationship with the Lord and awareness of His last-day Seventh-day Adventist movement. Included in each four-month intensive will be a 10-day evangelistic series designed to lead health contacts into regular attendance and ultimately membership at a local Seventh-day Adventist congregation.

**An Evangelism Mission Experience**

Subject to scheduling, students may participate in a mission experience as part of the HEALTH program, or they may choose to go on a mission trip with any of a number of ministries after graduation. Our mission experiences are focused on allowing graduates to see patients with a broad cross-section of medical conditions. One of the primary goals of the mission experience is to equip our students with health experiences that cannot be readily acquired in other ways.
Local Churches Get Involved

Would you like to maximize the effectiveness of your health evangelism team? Your church can make a significant impact on your local community by training members to work alongside our HEALTH graduates in the field. Our aim is to assist you in making your church a center of influence both physically and spiritually.

To accomplish this, we recommend each church has at least two members trained to serve as leaders, along with a group of volunteer assistants, to serve in the various areas of health evangelism. Recommended programs include CHIP™ (Complete Health Improvement Program), Depression Recovery™, Forgive to Live™, and Health Expo. Online training and more information can be found at www.chiphealth.com, www.nedleyhealthsolutions.com, www.floridahospitalpublishing.com, and www.newstartexpo.com.
Admissions Requirements

Students seeking admissions to the HEALTH program will successfully complete the following:

- Submit the application & pay the $50 application fee
- Request three non-relatives and your pastor to fill out a Reference Form
- It’s highly recommended that you have college-level Human Anatomy & Physiology.

We do not have an application deadline but class size is limited, so we encourage you to submit your information as soon as possible.

Transfer Credits

Our curriculum is carefully designed as a whole to enhance your learning experience so we do not accept transfer credits towards the 4-month program.

International Students

We accept international applicants into the HEALTH program. You will need to apply through Weimar Institute in order to receive an I-20. You are responsible to know what the requirements are for legal entry and stay in the United States.

All international students are required to provide evidence of health insurance prior to beginning classes. You may either purchase it online or make arrangements in your home country.

The application process for international students is as follows:

1. Fill out Weimar Institute application on the Newstart Global website at http://newstartglobal.com/training/health-program/admissions/international-students/ This application includes specific information for the I-20. Send in 4 references and pay $50 application fee.

2. Upon acceptance, pay the $1,750 International Student Deposit. This can be done by credit-card payment or wire transfer.

3. After receipt of the items listed in #2, Weimar Institute will issue an I-20.
4. After the I-20 form is issued, international students must pay the I-901 SEVIS fee on FMJfee.com prior to applying for their F-1 visa to study in the United States. To make the process easier, FMJfee.com is now accessible on mobile devices. Those who have paid the fee must print a copy of the I-901 SEVIS fee payment confirmation to take with them when applying for a visa to enter the United States. Showing a copy of it from a mobile device will not be accepted.

5. Make an appointment at the US embassy in your home country to apply for a student visa. Transfer students need to notify their International Student Advisor to make the appropriate changes in SEVIS.

6. Upon receiving student visa, purchase international student hospitalization insurance. Provide a copy of this to Weimar Institute.

7. Pay remainder of balance no later than two weeks prior to registration.

For questions about the application process, please contact admissions@weimar.edu or call 530.422.7923. For questions about payment or acceptance, please contact Maria Lombart at mlombart@weimar.org or call 530.422.7911.

Financial Information

One of the most important questions when applying to a program is, “What is the cost?” While we believe the training you will receive is invaluable in price, here’s a quick breakdown of what you will need to plan for. We have two options available: Certificate and College Credit.

The Certificate option is recommended for those who do not need college credit such as professionals or retirees or for those on a limited budget. The College Credit option is recommended for college students and those who would like to receive academic credit for their coursework. Students are required to indicate by registration which option they will choose as there is no retroactive credit awarded. International students are enrolled in the College Credit option to comply with SEVIS requirements. More information is available on page 15 of the HEALTH handbook.
Tuition & Fees
(Includes: Tuition, Room, $7,500 and 2 meals/day) $6,000

Additional Miscellaneous Fees
- Gas (if not bringing your own car) + $500
- Textbooks (can purchase used for less) + $215
- Labs (optional, varies) + $25 to $116

Additional International Student Fee
- I-20 Visa Processing Fee + $500

Please note: International Students are required to make a Deposit of $1,750 before arrival: $500 for visa processing, and $1,250 for tuition down payment.

Proof of international student hospitalization insurance and return ticket is required at registration.

Scholarships
NEWSTART® Global has a small scholarship fund available for worthy students. Funds are awarded based on availability, student need, and the discretion of the Worthy Student Committee. Please contact us at 530.422.7911 or globalhealth@weimar.org to request a scholarship form. These funds are not available for international students.
Discounts

We offer the following discounts:

- Early Application Discount $75 (30 days before classes begin)
- Buddy Discount $150

Sign up with a friend or family member and both of you will receive the Buddy Discount of $150.

We encourage our students to take advantage of the residential part of the program, but if you live locally and plan to commute, you may contact us directly at globalhealth@weimar.org for information about further discounts.

Payment Information

Please refer to the following deadlines for payment of fees.

Refund Policy

Cancellations submitted 30 days prior to the first day of classes will receive a full refund. Requests submitted after this period through the first 15 calendar days of the program will receive a 50% refund on tuition only. There will be no refund for housing or meals. No refunds will be made for cancellations after this 15-day period. All statements of cancellation must be submitted in writing to the records office.

The $195 cleaning and key deposit is refundable only if the room is spotless and clean, all your belongings have been removed, and your room key is returned upon checkout. The dormitory dean will inspect your room and must approve the refund. The refund is not applicable if funds were awarded from the Worthy Student Fund; the $195 deposit is then returned to the fund.
HEALTH Certificate Courses

A total of 18 semester credits are required to successfully complete the HEALTH certificate program. Additional non-credit seminars and symposiums will be available during the semester.

Course Descriptions

**HLCP 230    Personal Health & Coaching  0/2 credits**
In this course the student will work to identify and meet their own health objectives, learn how to conduct health assessments, and provide health coaching to community guests. They will study the Biblically based art of lifestyle coaching and develop a basis for effective witnessing to the clients they will serve. This course is a co-requisite course for HLCP 242.

**HLCP 242    Health Evangelism Fieldwork  0/5 credits**
This course is designed to bring the entire program together through the delivery of programs for individuals and the community. Programs may include Health Expos, Newstart ReNEW, Depression Recovery, Forgive to Live, 8 Weeks to Wellness, cooking schools and health coaching.

**HLED 201    Health Seminar/Symposium  0 credits**
Seminars and symposiums will cover topics such as Music for Health, the Adventist Health Study, BCLS, Reversing Diabetes, and Gardening for Health.
HLED 320  Lifestyle Treatment of Western Diseases  0/4 credits
In this course the student will become aware of the major Western Diseases as well as the lifestyle treatment of them. Includes whole plant foods cooking and massage and hydrotherapy lab. The diseases covered in this class will include the ones presented during the seminars for the public in HLCP 242. This course is thus a co-requisite to HLCP 242.

LEAD 310  Leadership for Evangelism  0/3 credits
In this course the student will learn the skills needed to successfully lead or be a part of a health evangelism team. Areas covered in this course will include: public speaking, personal evangelism and lifestyle coaching as they relate to the delivery of health/evangelism seminars in a local church setting. In addition, an emphasis will be given to effective marketing and business planning.

RELB 271  Religion & Health  0/4 credits
A study of key passages in Scripture and the Spirit of Prophecy that relate to health and healing. The latest research relating to religion and health will be summarized, and these themes will be covered from the perspective of the mission and message of Adventism. These studies will provide the basis for understanding and developing effective personal or public evangelistic studies and seminars.

Certificate Non-credit Option vs. College Credit Option
The Certificate non-credit option includes a letter of recommendation that is dependent on earned grades but doesn’t include a transcript. The Certificate option awards a certificate in HEALTH Evangelism upon completion. The College Credit option includes a transcript listing 12 credits and awards a certificate in Health Evangelism upon completion. Students are required to indicate by registration which option they will choose as there is no retroactive credit awarded. International students are enrolled in the College Credit option to comply with SEVIS requirements.
Academics

Academic Calendar

Fall 2016
- August 19: Registration
- August 19-21: Convocation weekend
- August 21: Orientation/First day of classes
- December 11: Graduation

Spring 2017 (dates subject to change)
- January 15: Registration
- January 15-16: Convocation weekend
- January 17: Orientation/First day of classes
- May 6-8: Graduation

Daily Class Schedule
Students begin the day with an hour of exercise at 6:00 am. Classes generally go from 9:00 am to 1:00 pm with select afternoon times Monday through Thursday. Evening programs are at the local church from 6:00 pm to 9:00 pm. Students also participate in outreach on Sundays, Tuesdays & Thursdays afternoons and weekend events including Friday vespers, church on Sabbath, and Sabbath activities.

Transferability of Credits
Students will earn a certificate in Health Evangelism and Leadership upon successful completion of the HEALTH program. Select courses will be available for application to other degrees and programs offered at Weimar Institute. Select courses may also count as elective credit.

Credits earned at Weimar Institute or any other college or university are granted transferability at the complete discretion of the accepting institution. Weimar Institute is approved to grant degrees by the State of California’s
BPPE (Bureau of Private Postsecondary Education) and is in the process of seeking accreditation with WASC (Western Association of Schools and Colleges), and thus is currently unaccredited. To ease transfer of credit(s) to another institution, contact the Weimar Institute Registrar for help in this process.

Some institutions require faculty CVs and course syllabi to recognize credits from unaccredited institutions. If the accepting institution does not recognize the credit(s) or certificate or degree obtained at Weimar Institute, some or all of the coursework may need to be repeated at that institution. Consequently, students should confirm that attendance at Weimar Institute meets their educational goals. This may include contacting a potential institution to which the student may seek to transfer after attending Weimar Institute to determine if credits or certificate or degree will transfer.

Continuing Education Units (CEU)

Professionals enrolled in the four-month program may be eligible for CEUs. Please contact HEALTH directly at globalhealth@weimar.org for more information.

HEALTH Faculty

Director – Don Mackintosh BSN, MDiv

Don Mackintosh has a rich history in ministry having worked as a Registered Nurse, a lay Bible worker, a pastor/evangelist, then for five years as the Director of an Evangelism school. For years he has hosted “Health for a Lifetime,” a popular show on 3ABN dealing with health issues. Author of the “What’s the Connection?” DVD series, he also developed a new series of studies on Daniel and Revelation and a Gospel Workers training course. He is married and has 4 children.
Assistant Director – Henry Escamilla, MPT

Henry Escamilla, a graduate of Loma Linda University, has been a Physical Therapist for 17 years. His experience has included the whole continuum of care from acute care to outpatient settings and he is certified in stroke rehabilitation. Also a HEALTH and AFCOE (Amazing Facts Center of Evangelism) graduate, he understands the importance of uniting the gospel with medical ministry which is seen in his passion for health evangelism in the church and community.

Registrar – Randy Steffens II, BSBA

Randy Steffens II is a graduate of the It Is Written iPreach evangelism training program. He has served as an instructor for AFCOE Philippines and has taught at Herghelia Medical Missionary School in Romania, as well as serving as interim director of Sarata Noua School of Evangelism in Moldova. He and his wife Cristina have a passion for missions and a dedication for service together in ministry.

Karen Hamilton

Karen Hamilton has a background in both health, with training in massage and physical therapy, and evangelism, as she attended Mission College and Amazing Facts Center of Evangelism. She has done Bible work with Amazing Facts, the Northern and Central California Conferences, and Mark Finley. Her passion is to see people’s lives changed through the power of the gospel as they realize God has a purpose for their lives and that He cares about them.

Neil Nedley, MD

Neil Nedley, M.D., is a practicing physician in Internal Medicine with emphasis in Gastroenterology, Mental Health, Lifestyle Medicine, and the difficult-to-diagnose patient. Author, speaker, and president of Weimar Institute, he also runs a comprehensive depression recovery residential program. He has a passion for medical evangelism.

</table>
Student Handbook

This is an abbreviated version of the Weimar Institute handbook located at http://weimar.edu/admissions/ (Click on Academic Bulletin & Student Handbook on the left). Refer to it for additional details or clarification.

Alcohol, Tobacco and Drug Abuse

Our campus is a drug-free campus that actively seeks to provide an environment in harmony with the philosophy of the Seventh-day Adventist Church as well as state and federal laws. We have a zero-tolerance policy on drugs, alcohol, and tobacco.

Assault

In accordance with Weimar’s campus policy, residence halls will not tolerate physical and/or verbal assault. Residents involved in this type of behavior will be subject to discipline, including possible dismissal. Local authorities may prosecute the resident.

Dating

Due to the nature and intensity of the program, students are encouraged to maintain a professional association with each other. Dating and courting are not allowed while enrolled in the HEALTH program. Students are expected to uphold high moral standards in all aspects of their lives.

Dormitory Living

Dormitory rooms are double-occupancy at minimum. Group living situations provide excellent opportunities to practice personal courtesy, cooperate with each other, learn to meet others’ needs, and develop social responsibility. All students should respect the privacy, personal feelings, and personal property of roommates and neighbors.

Pictures, posters, and wall hangings are not to be nailed, tacked, stapled, screwed or taped to the walls or woodwork. Posters and pictures must be put up with poster putty only. Students assume financial responsibility for any damage done to their rooms.
Dress Code

Dress should be modest, professional, functional, and conducive to health. Classroom appropriate attire for women includes dress, skirts, or modest dress pants and for men it includes dress pants and collared shirts. Jeans and shorts are not appropriate classroom, outreach, or church attire. Church attire for men is suits or sport coat/dress slack combinations, dress shirt and necktie, sweaters or vests and dress shoes. Church attire for women is dresses, skirts with blouses/sweaters, and dress shoes or sandals. Clothing that is inappropriate outside of the dorms include sleeveless tops, short shorts, and tight or transparent clothes. Students are asked to refrain from wearing jewelry with the exception of a medic alert chain/bracelet.

Forbidden Items

All guns, rifles, sling shots, starting pistols and paint guns are strictly prohibited on campus, in residence halls or in a resident’s car. Possession of martial arts weapons and knives larger than a pocketknife is also prohibited. Skateboards are not allowed on campus at any time. Selling, possessing, or using firecrackers or similar combustibles is a violation of campus, county and state fire ordinances. Possessing or using an M-80 is a violation of federal law. Illegal use of, or tampering with, fire protection equipment such as alarms, escapes, hoses and extinguishers is a violation of campus, county and state fire ordinances. Objects with open flames, candles, halogen lamps torches, incense, oil lamps, electric cooking appliances, fireworks or combustible chemicals are prohibited in residence halls.

Guarding the Mind

Students are urged to follow the counsel from Philippians 4:8, whether they are occupying their minds with studying or a leisure activity. Most modern television programming is not conducive to academic, spiritual, or social growth, therefore television sets are not allowed in student rooms or in residence halls. Video games are also not allowed. All forms of electronic media and reading material are to be used only in ways that clearly uplift the human spirit and respect the rights and tastes of others. Students are encouraged to arrange a balanced schedule that allows time for personal Bible study, work, exercise, and timely completion of class assignments.
Internet & Telephone

Computers with Internet access are provided in the library and wireless Internet access is provided on campus as available. Weimar reserves the right to check content of computer files on campus and in individual rooms for illegal activities and pornographic materials. If you violate the law, criminal prosecution may result subject to the discretion of local law enforcement. Most cell phones get reasonably good reception at Weimar. Public phones are available in the dormitory lobbies but you must have a calling card for long distance calling. There are no personal phones in student rooms.

Laundry

Washers and dryers are available for student use.

Medical Expenses

Students are responsible for their own medical and dental expenses, with the exception of expenses associated with an accidental injury. Weimar Institute carries accident insurance for each enrolled student. Weimar accepts no responsibility for illness-related health care beyond assistance for minor outpatient care by the campus health services. There is a nurse on duty 24 hours a day and a physician is available as needed. Major medical attention requiring inpatient care or services beyond the resources available is the responsibility of the student. Long-term medical needs treated by the staff will be billed to the student’s account.

Spiritual Development

Attendance at Friday evening vespers, church services and other Sabbath services is expected. Sabbath is God’s time for mankind to meet with Him in an atmosphere free from non-spiritual distractions. Primary attention is given to worship, rest, Christian fellowship and service from Friday sundown until Saturday sundown. During these hours students are expected to refrain from secular entertainment, music, shopping, restaurant dining, business transactions, sports, scholastic studies, work and other similar activities.

Transportation

Students will need to provide their own transportation to and from campus and outreach activities. There may be opportunity to carpool with other students if you do not have a personal vehicle.
